

PickWise

- What is it

PickWise is a start-up concept developed during an entrepreneurship course. It streamlines the shopping experience by helping users save time and discover the right products through an intuitive filtering process, leveraging real customer reviews and clear feature descriptions.
- Audience

Online shoppers of high-end goods (<€100)
- Deliverable

A minimum viable product of the service in the form of a website wireframe
- My contribution

I created the Figma prototype in collaboration with another group member. The prototyped was iterated upon based on user feedback we gathered through interviews and surveys.
